The Eyes! The Eyes!!

DR. E. H. PARDEE, OCULIST.

AFTER a protracted blindness of more than five years, DR. PARDEE has made himself thoroughly and scientifically acquainted with all disorders of the Eye, and is now practising with universal success, the same treatment by which he was cured.

A WORD OF CAUTION—The Eye is by far too precious and delicate an organ to be trifled with or made the subject of random experiments; therefore it would be exceedingly unwise, and perhaps dangerous, to accept any of the "Never-Failing Cures" that are tendered by the mistaken kindness of all around, for every one offers a specific for diseases of the eye.

☞ Many patients can be seen daily at the office of DR. PARDEE, in different stages of recovery.

Miscellaneous News Received by the Golden Age.

THE MAINE ELECTION.

The news, as has been anticipated, is important politically. The Republicans are carrying the North in State elections with a rush. The victory of the Black Republicans in Maine is very decisive.—The Portland Advertiser speaking of Mr. Hamlin, the nominee of that party for Governor, says:

"We think Mr. Hamlin's vote will come well up to 70,000, his majority over Wells and Patten to about 19,000, and his plurality over Wells to 25,000."

The Legislature elect, stands as follows:

Senate, Repub. 30 Anti, 1
House, Repub. 125 Anti, 26

The Republicans have elected the entire delegation to Congress, six in number.

CONVENTION OF OLD LINE WHIGS.

The old line Whigs have held a National Convention at Baltimore, which commenced on the 1st of September.—they endorsed the nomination of Fillmore and Donelson. The following is from the New York *Herald:*

"The Whig National Convention at Baltimore on Thursday endorsed the nomination of Fillmore and Donelson, appointed a National Executive Committee, and adjourned. In the evening a mass ratification meeting was held, and, judging from the accounts we have received, it was a very brilliant affair.

Three hundred Book sellers who had assembled in New York, called upon Col. Fremont, at his residence, and were severally introduced. A Mr. Ellis made a speech, wishing Fremont various terrestrial blessings—also that he might get the Presidency. Col. Fremont complimented the general appearance of the crowd, and said he had a high opinion of Book selling—particularly, we presume, of that Book in which is recorded his exploits. After which the party took a drink and separated, feeling salubrious without doubt.

A Republican association in Baltimore was broken up by a mob, on the evening of September 12th. The association were occupying their own rooms, when they were broken open and the occupants ejected, some of them being handled roughly.

The Black Republicans and the Gardner American party of Massachusetts, were about to coalesce, as it would seem from the *Herald:*

The Massachusetts Republican and Gardner American State Convention met on Tuesday. The two organizations united upon a ticket for Presidential electors, and will hold their conventions for the nomination of members of Congress simultaneously, with a view to coalition. It was understood that the Republicans would not nominate a ticket for State officers, thus leaving the track clear for Gov. Gardner and his colleagues.

A terrible riot occurred in Baltimore on the afternoon of September 12th, between the American Clubs known as the Rip Raps and the Wampanoags on one side, and parties disposed to interfere with them while marching in procession. The results were—two men killed and twenty others hurt, some of whom will die of their injuries.

ARREST OF WM. T. COLEMAN.

Mr. William T. Coleman, President of the San Francisco Vigilance Committee, was arrested in New York on the 18th of September, at the instigation of James R. Maloney, late of California, who complains that while performing his duty in guarding the State arms, he was seized and finally expelled the State by the Committee, to his great personal and pecuniary damage. Mr. Coleman, who is now on a temporary visit to New York, was taken before the Supreme Court, and held to answer in the sum of fifty thousand dollars.

COLLISION AT SEA.

The American ship "Ocean Home," from Rotterdam to New York, came in collision with the ship "Cherubim," off Lizard Point, at the entrance of the English Channel. The Ocean Home immediately went down, carryiug seventy-seven unfortunate emigrants.

It will be remembered that C. K. Garrison, agent of the Nicaragua Steamship Company, was arrested on his recent arrival in New York, at the instance of Com. Vanderbelt, charged with all sorts of financial misdemeanors. The Herald contains a statement of Mr. Garrison's, in which he tries to make it out that he is all right, and never took anything that he could'nt get—that the Transit Company owes him, &c. Vanderbelt rejoins, and makes out a stronger case than ever, particularly against Garrison's character. A rich fight this will be before it is over, especially for lawyers.

The news of the disbanding of the Vigilance Committee had reached the States, at which many papers express satisfaction—some approving in toto, among which is the *Herald*, all their acts, &c.

A great prize fight has taken place near New York, between one Kelly and Lynch. Eighty-four rounds were fought. Lynch was victorious, and Kelly has since died of his wounds.

A sad accident occurred upon the Boston and Maine Railroad, on the morning of September 11th, near the town of Reading. Two persons were instantly killed and a large number wounded, several of whom cannot recover.

A man who was assisting at the raising of a democratic pole in Buffalo, on the 16th inst., was instantly killed by it falling upon him. Two others were injured.

A Fremont ticket for Electors has been made out in Virginia, and it is said he will obtain many votes in that State.—Gov. Wise recently said that the acceptance of a nomination for a Fremont Elector, was constructive treason, and the *Tribune* wonders if he will arrest the nominees.

Little is said in either the *Herald* or *Tribune* regarding Fillmore. We did not expect much and are therefore not disappointed. We are satisfied, however, that the great body of Union and conservative men in the country are working quietly, but none the less effectually, for him, the Union and the Constitution. We will not know the sentiments of the great mass of the people towards Fillmore until the time comes for voting for him, when we believe that thousands upon thousands of the people, North and South, will discard their prejudices of section and of slavery, and rally around him. State elections prove nothing, so far as his chances are concerned, as we will continue to believe. By the help of a strong constitution, properly nourished, and a good pair of lungs, we will talk it—blow it—and *work for it.*

KANSAS.

Affairs in Kansas are as bad as ever, perhaps worse—no collision however has taken place between the State troops and the inhabitants—murders and fighting seems to be the principal pastime of a majority of the population. The N. Y. Herald says little or nothing about the state of things existing there, but the Tribune is full of it; murders are related minutely; accounts of outrages are given at length; movements of Border Ruffians and of free State men; affidavits of individuals, and letters of abolitionists are paraded with great show. We tried to make up a condensed statement of affairs there, but it was no go—and our readers must go to the Tribune itself if they wish to see anything of it—and may the Lord quicken their understanding and eyesight, as preparatory for the work of getting at facts.

Our Minister, Mr. Dallas, has been making a speech before the cutlers of Sheffield, which was much applauded, and is much complimented by the British press.

A Convention has been entered into between England and Honduras, in which the Bay Islands are restored to the latter. They are valuable for mahogany and other woods.

A project for placing San Juan (Greytown) under the government of Nicaragua, is being considered by Mr. Dallas, our Minister to England, and Lord Clarenden.

Gen. Walker's government in Central America, will, without doubt, be recognized by England. This is of greater importance to Walker than a like act of any other nation.

A Revolution is feared in Switzerland.

The June number of Blackwood had a well written article, endeavoring to show that Great Britain and the United States were natural allies; that liberty in both hemispheres depended upon it, and that it is the most insane folly for those two nations to be continually quarrelling with each other. We had hopes, from seeing such an article in a magazine which had never any especial liking for this country, that English political writers were beginning to see the folly of blowing every trifling difficulty between the two governments into a flame of war, and that they had become impressed with the truth that bluster was very poor argument, and lacked any degree of force at all, when used to intimidate the United States from pursuing its own policy in its own way, having strict regard to the relations it bears to the other nations of the world. The moderation of the British writer led us to believe that the other difficulty of the Central American question could soon be settled by persons who came to the discussion with friendly feelings, and a disposition to do only what was right and proper. Whatever hopes may have been built upon the moderate tone of Blackwood, are dispersed by an article in the July number. The writer seems to have his former amiability, and gives free scope to his bad temper and mortified feelings, which predominate throughout the whole of the article on the "Dispute with America." The writer's "blood tingles at the termination of the enlistment quarrel," and he will have "not a hair breadth's concession more." He volunteers divers warnings of the terrible vengeance which will visit us if we continue in our wicked course of flouting Great Britain, and disregarding her assumptions of title to territory where she never had any right. All this looks very belligerent, and might raise serious apprehensions respecting the settlement of the Central American question, but that statesmen in England are as little governed as the statesmen of the United States by the party newspapers. They look entirely over the heads of such writers, and rise far above their clamor.—The nation, its interests, its policy and its progress, are behind all parties, and the latter sink into insignificance when they urge a course which is at war with the feelings and wishes of a free people. The English people have just shown that they can control party clamor, however violent it may become, and compel the government to do what justice and right demand. If, in the discussion of the Central American question, they see that their government is wrong, they will make such concession as justice and honor require, and beyond this the people of the United States do not ask.—*Dollar Newspaper.*

AN ESQUIMAX BLLE.—A member of Dr. Kane's exploring expedition, not having seen a woman for several months, became somewhat smitten with a young Esquimaux girl, whose seal skin bloomers at last completely vanquished our countryman. Wishing to testify his admiration of the fairy, or, as a friend suggests, hairy creature, he cast about for a love offering. But love offerings were scarce in lattitude 72 deg.; and in despair he drew a couple of "double refined" ta'low candles from his sack, and timidly presented them to the object of his adoration. She eagerly accepted the gift, and greedily devoured the candles before her lover's eyes. The young man was at first startled, then disenchanted, then disgusted; and returned to his ship a Know Nothing, with a firm determination never again to make love to a "foreigner."

A close observer of the fashions remarks that ladies' dresses are fuller *behind* than he ever saw them *before.*

Legal Anecdote.

This capital legal anecdote, connected with the New Hampshire bar, we clip from a California newspaper of a recent date:—Two of the great guns of the New Hampshire bar, Jeremiah Mason and Ichabod Bartlett, had been battling all the week, and the most important cases had been disposed of. The judge was half asleep, the jury was in scarcely a better condition, and cases were decided before the parties interested knew which way to turn. At about four o'clock an old man was placed at the bar, accused of passing counterfeit money. There were but a few persons in the court-house—the lawyers, who had finished their business, had gone home, and the old fellow seemed in a fair way to be rapidly consigned to the State prison. Mr. Bartlett, the young *gun*, sat with his arms folded, and his feet upon the edge of the table, apparently asleep, while the attorney-general was examining two or three witnesses. Never was justice hurried through in a more summary manner. The evidence was direct and conclusive, and as witness after witness left the stand, the old prisoner's face grew paler and paler, and he trembled at the certainty of his fate. By-and-by Mr. Bartlett opened his eyes, cast a glance at the grey hairs of the culprit, yawned gently, and turning to the attorney-general, said audibly, "I'll defend this man." He asked no questions of the witnesses, and took o notes, but when the evidence was through, he rose and delivered one of the most beautiful arguments ever heard.—The testimony, which appeared as clear as noon day, he pulled all to pieces; he made discord of harmony, nonsense of sense, discrepancy of the most exact agreement, and when he touched upon the old man's unjust sufferings he even drew tears.—Without leaving their seats the jury declared the prisoner "Not guilty!" The weeping man, with clasped hands, leaned forward, seeming to invoke a blessing upon the head of his defender. "Let him out, constable," said Mr. Bartlett; "*and now, you old rascal, go about your business, and never let me catch you counterfeiting money again!*" The jury stared in wonder, and we left the court-house, laughing yet sorrowful.

During one of the great political conventions of the present campaign, a Methodist church was engaged for a meeting. The boys, who were on the alert for excitement, took early possession of the gallery, well supplied with stick to beat the floor in response to the speeches. One of the excellent Methodist brethren had been very justly grieved that the house was lent for such a purpose, and hoping to save it as much as possible from desecration, he went up into the gallery before the meeting began, and told the boys that they ought to remember they were in the church, and to behave in a manner becoming so holy a place; especially, he hoped they would not disgrace themselves and the place by making a noise, rapping, or shouting, or whistling, or any thing of that sort. "But if there should any thing be said which pleases you very much, then, boys, you may say, 'Bless my soul,' 'Amen,' and so forth, as the case may be."

The meeting began. The chairman stated the object of the assembly, the great honor he had in being called to preside, the proudest day of his life, and becoming warm, he launched out into such eloquence as to arouse the spirits of the boys, who would have given him a round of applause with their sticks but for the old man's advice, when, recollecting his permission, they at once began to cry out, "Bless my soul!" and at the end of the next sentence, "Amen!" and soon a chorus of youngsters cried out, "And so forth!" to the astonishment of the chairman, who addressed himself to the galleries, and said he should have them cleared if that interruption was repeated, whereupon the whole race of them shouted, "As the case may be!" The excitement became so great between the galleries and the pit, that the boys had to promise to withhold any further expressions of their enthusiasm, and they were then allowed to remain.

An elderly young lady, with a taste so fastidious that she refused to have the *Christian Observer* taken in the house, for she said it was often lying in the room when she wanted to dress, and she would not dress with an Observer in the room, if it was a Christian—this very delicate lady inquired at one of the fashionable dry goods stores for nice silk hose. The attentive clerk displayed the articles, and the lady examined them narrowly, passed her hand down one of them, and holding them up, as if to see their length, asked:

"How high do they come?"

The clerk, not thinking that she meant to inquire the price, blushed to his brows, and stammered out, "Well, really, Miss—Madame—I think about to the *knee!*"

The astonished lady's eyes flashed fire, and as she was a little of a blue withal, she cried out,

"Well, you are the '*ne* plus ultra' of all clerks. I did'nt know there could be such a fool," and leaving the hose on the counter, she sailed away.

One must be *easy* in his mind to go to sleep *quietly*, but what must have been the feelings of the stranger who was sent up stairs in a Western hotel to sleep with a backwoodsman, who gave him this welcome:

"Wa'al, stranger, I've no objection to your sleeping with me, none in the least; but it seems to me the bed's rather narrow for you to sleep comfortable, considerin' how I dream. You see, I am an old trapper, and generally dream of shooting and scalping Injuns. Where I stopped night afore last, they charged me five dollars extra 'cause I happened to whittle up the head-board with my knife while I was dreaming. But you can come to bed, if you like. I feel kinder peaceable to-night."

WEDNESAY MORNING:::::OCT. 22.

☞ RELIGIOUS NOTICE.—The Rev. Mr. SIMMONS will preach at the Methodist Church at the corner of Main and Seventh streets, on Sunday next, at 11 o'clock, A. M., and in the evening at 7 o'clock. The public are invited to attend.

The Rev. J. F. BLYTHE, former Presiding Elder of this district, is expected to be present.

Political Meeting.

A discussion took place at upper Sherlock's, at Vining's Saloon, on Saturday evening last, between the candidates of the American party, and that of the Democratic party. It was fairly attended by the people of the vicinity, who are generally active upon the eve of an election, upon both sides. G. Green, Esq., was appointed Chairman, who after introductory remarks introduced Mr. Lamon, whose speech was very satisfactory to the audience in all particulars, excepting its length.

Col. Merritt followed, and with his usual good sense, talked democracy. One point in his speech we could but notice, and that was his defence of his party in refusing to go into joint convention for the election of Senator last winter, and his approval of the action of the "immortal seventeen" of the Senate. The reasons of approval, are the usual ones given by all who esteem party successes above, what to every reasonable man must, we conceive, to have been considered duty. And the reason given was the flimsey one, that the Know Nothings were in power, and that they could not be considered to be a legitimate party—and that they, though in a large majority, did not represent the people of this State; and that it were better to go without a Senator, than to have one from a party to whom the great unwashed accorded very little respect. This defence we did not expect Col. Merritt to undertake—and he will find it to be a load, which to carry, will break his wind, or that of any other man who attempts to do the same thing. The Constitution expressly says, that "when a vacancy shall occur in our delegation in Congress, *it shall* be the duty of our Legislature to fill such vacancy." And in the face and eyes of this, they, the great Constitutional, majority abiding party, par excellence, as is claimed, refused to fill such vacancy! Where was Constitutional obligation? We ask where? Was it not placed second to party obligation? One year before, when Gwin and Brodrick were contestants, each at the head of a portion of the Democratic party, they then manifested no conscientious scruples about going into an election, though there then was a reasonable doubt of the constitutionality and policy of such proceeding.

Sam Bell came next; he commenced by alluding to a report which had obtained a circulation, upon the river, to the effect that he, Bell, was afraid, and avoided meeting Col. Merritt upon the stump—tracing said report to Merritt. Mr. Merritt, we understood to deny being the author of said statement; and after some personal explanations, Mr. Bell proceeded, and made *the* speech of the evening. We would give portions of it, but we have not room. Messrs. Showalter, Kelly and Howard, each made remarks, which however, were short, the hour being late.

We owe an apology to our advertising patrons whose advertisements have been left out on account of the press of political matter. Soon the election will be over, and we will make amends for short comings in this respect.

We are indebted to Messrs. GARDNER and CONDON for Express favors.

Something about our State and Local Ticket.

The capacity and fitness of our nominees for Congress, is universally conceded, even by our political enemies and the neutral press. The only thing that has yet been said against them, and that by the facetious and witty sheet, the Democratic *State Journal*, is that Mr. Whitman is a good-looking school-boy gentleman, and that Dibble and Skinker—or Skinker and Dibble—are uncouth names, and therefore unfit for office. These are truly *serious* objections, and *must* have a *telling* effect with all men of reflection.

B. C Whitman.

This gentleman has been a resident of California for more than six years, and though from his inclination to corpulency, looks younger than he really is, has proven himself, during the present canvass, to be old enough to measure arms, in politicss, with speakers vastly his senior.—Mr. Whitman is a graduate of Harvard University, where he acquired those habits of investigation and style which, joined to good natural endowments, have rendered him a formidable opponent during the past campaign. He is a lawyer by profession, and occupies an enviable position at the bar. In 1854, he represented the county of Solano in the Legislature, and while a member, was noted for industry, ability, and correct habits—a character which he has borne from boyhood up. At the last session of the Legislature, it was at one time contemplated to have our laws revised and codified, and Mr. W. was fixed upon as one of the jurists of the country best qualified to perform this responsible undertaking. In consequence of the expense, the project was abandoned. However, before the Legislature adjourned, there being a vacancy in the office of Reporter of the Supreme Court, Mr. Whitman was appointed to this position. He is, as is well known, a fluent speaker, understands, as well as any citizen, the true interests and wants of California, and with all, an intelligent, courteous gentleman, who will make his mark in Congress.

A. B. Dibble.

This gentleman, the other nominee, is also a distinguished member of the bar, and of great personal and political popularity in the North. He will make a fit companion in Congress for his confrere, Whitman, and his character is *sans peur, sans reproche.* He is a man of decided ability—a ready debater—indomitable perseverence—and will make a befitting representative of the El Dorado State.

John Skinker.

Mr. Skinker, the nominee for Clerk of the Supreme Court, is a resident of Sacramento, and is engaged in business as real estate broker. He has never been an aspirant for office, and it sought the man in this instance. His business habits, his known integrity, and general qualifications for the office, are thoroughly vouched for hy those who know him best. The position of Clerk, is one of great responsibility, and requires a methodical and careful man to keep the numerous papers of the Court in a suitable condition for ready reference. Mr. Skinker is *the* man for this situation.

Henry B. Janes.

This is our candidate for the office of Superintendent of Public Instruction.—No one man has done more towards perfecting the organization and efficiency of the Common Schools in San Francisco, than Mr. Janes. By education and experience in all matters relating to schools, our candidate for this office, is peculiarly qualified. We, therefore, commend him to the people as a candidate every way worthy of support. In him, the cause of popular education will have a devoted advocate. He is no fossil, like the present imcumbent of this office, but will infuse new vigor into our State school system, and increase the school fund, so that every child in the State can have a free common school education.

Sam Bell.

Next in order, comes the county ticket, about which we have something to say.—Our obliging friends of the *Democrat*, published a communication last week, under the head of "Political History," respecting them, which, if true, is calculated to place them in a fase position before the public. The article in question, reminds us of the fable of "the viper knawing a file." Such impotent attacks, written for electioneering purposes, are well understood by every one, and will be taken for what they are worth, just nothing at all. The communication is a tissue of misrepresentation, with here and there barely the color of truth—a few specks of gold among a great deal of black sand.

But to our subject. Sam Bell, the Senatorial candidate for this District, is favorably and generally known by the voters whose suffrages he seeks. In the fall of 1852, he was nominated by the democracy of this county, and elected to a seat in the Legislature, by a handsome majority. He was a prominent member of that body, and took an active part in all measures of a public nature. His opposition to excessive appropriations of the public money—his acquaintance with the financial condition of the State—his known conservatism, and fitness for a higher position, were established during the session, and at the State Convention of 1853, he was nominated for the important office of State Comptroller, and elected that fall.

The duties of Comptroller, are of an intricate and embarrassing kind, requiring on the one hand, constant watchfulness to guard the interests of the State, and on the other, to protect the rights of individuals. False and overcharged valid claims, are constantly presented to this office to be audited, and it requires no ordinary care, discretion and firmness, to dispose of these various claims according to law, and in an equitable manner. His predecessor in office was a liberal, while he was a strict constructionist of these demands.—By this means, he saved thousands of dollars to the State, and discharged, generally, the duties of Comptroller, to the satisfaction of the public, and with scrupulous integrity, and acknowledged ability.

Towards the close of his term of office, he, as well as the State Treasurer, becoming disgusted with the dissevered and corrupt party, abandoned the democracy and refused to sail any longer in the unseaworthy craft. Her timbers were decayed—the sheating was torn off—the sails and cordage were rotten—the officers in command quarrelled among themselves—and in the fall of 1855, during a political hurricane, the vessel was stranded, and the leaders were politically thrown upon their beams ends. All the planks and timber in the democratic platform will not suffice to put her again in repair.

Sam Bell is an American, and is now before the people as a candidate for the State Senate. His past experience in legislation, and in the financial affairs of the State, eminently qualify him for the office. He has been tried and not found wanting. The people know what kind of a man they are voting for, and we confidently predict that he will represent this District, the next two years, in the Senate of the California Legislature. So mote it be.

R. B. Lamon.

This candidate for the Assembly, as is well known, has served the people of this county one term in the Legislature. His occupation is that of a manufacturer of lumber, and his interests are thoroughly identified with the prosperity of the county. Mr. Lamon, during the last session of the Legislature, was an active member—always to be found in his seat, and occupied an enviable position. He dodged no questions, public or local, that came before that body (as many members are in the habit of doing,) as the votes on the journal will show. During the session, Fresno county was formed, and although the formation of this county subtracted somewhat from the receipts in the shape of taxes, from Mariposa, yet, in common with the general practice and acknowledged right of any portion of a county, on petition thereof, to be set off from the mother county, he advocated the formation of the new county. In doing this, he represented the wishes of his constituency, in common with his associate, Mr. Rhodes, and Maj. McNeil, of the Senate.—Mr. Lamon has had the experience of one term in the Legislature, which qualifies him to represent the interests of the county much better than any green hand can do. When Garrick was asked why it was he appeared so much at his case in comedy, as well as tragedy, he replied:—"There is nothing like learning the tread of the stage. It appears to you, that it is perfectly natural to me, but I assure you, it cost me ten years labor to learn it." So it is to a new hand in the Legislature. He has first to become familiar with parliamentary rules—familiar with the previous legislation in the State—practice in legislative speaking—a knowledge of the forms and language of drawing bills, and by the time he has acquired this information, if a close student, the session will be near its close. Mr. Lamon has these qualifications, and will make what the people of this and Merced county need—an able representative. As the choice of the people last fall, the choice of the American party to represent the county this, we confidently expect that he will receive the votes of all who wish to promote the best interests of the two counties.

S. L. Kelly.

We come now to the last, but not least, among our nominees, Mr. Kelly. He belongs to the agricultural end of what once was Mariposa county. He is a stock grower, and a worthy representative of the agricultural interests. He is equally interested in the success of the miners, because their success is intimately connected with the interests which he more particularly represents. When the miners prosper, so do the farmers, and although Merced and Mariposa are separate counties, their interests are indivisible. The one furnishes the food, the other the gold to pay for it—and when it is hard times on one hand, so it is on the other. Such a man is likely, from interest, independent of principle, to make a good representative of both classes. Mr. Kelly is not versed in the details of legislation, neither are his opponents. We claim nothing for him on this score, but for industry, honesty, good repute, intelligence and incorruptibility, he stands forth a true representative of the producing and laboring man in any county, State or country. To show that this candidate is also a favorite with our opponents, we quote the following from the last number of the *Democrat*: "I believe Samuel L. Kelly to be an honest and intelligent man—a fair opponent." How can we doubt the success of a man endorsed by both parties?

ANOTHER INDORSEMENT.—We feel it our duty to state to the public our conscientious conviction that Henry B. Janes, the American candidate, is the most suitable person for Superintendent of Public Instruction of all the candidates in the field, and that the interests of the Schools would be promoted by his election.—*Bulletin.*

Thus, one neutral paper after another, is indorsing our nominees, not because they belong to the American party, but because they are best qualified for the offices to which they aspire.

HOGS.—The running at large of hogs in our streets has become an intolerable nuisance. Our citizens ought to adopt some measures to prevent it.

Democratic Sins of Commission.

This party's sins of commission, local, State, and National, are so numerous, as to preclude the possibility of mentioning them within the limits of our small sheet, and we shall therefore take a tilt at some of the most glaring ones. The party is responsible for glaring election frauds, perpetrated in San Francisco and elsewhere, by ballot-box stuffing, and making out false returns of election precincts.—It's satellites are also responsible for attempting, if not succeeding, in tampering with, and bribing, members of the Legislature, to go into an election of a United States Senator, during the sessions of 1853 and '54. It squandered a vast amount of the patrimony of the State, by confirming Alcalde grants in San Francisco, and indirectly giving to speculators, the water-lot property, in which every citizen had an interest. It has shown its inconsistency by advocating the election of a United States Senator in 1855, and opposing the election in 1856. Federal officers have left their posts of duty, to beseige the Legislature, in order to induce members to vote for or against the election of a U. S. Senator, as might best subserve their private ambition, without regard to the welfare of the State at large. The same officers are now engaged in canvassing the State, at the express or implied behest of their master at Washington, Franklin Pierce, to the deplorable neglect of the public business, and at the expense of subordinates, who are taxed in the Federal offices. Their minions, who are in almost every county in the State, work with renewed zeal, with the promise or prospect of some official appointment under them.

Such are some of the few sins of the democratic party that defeated it last year in this State, and will surely do it this.

Public Sins of Omission.

Our State has been immensely retarded in its progress by the dilitory action of the general government in relation to the sale of our agricultural lands. Most of them have been surveyed for two years or more, and up to this time, not an acre has been put in market. As a consequence, there is no fee simple title to land in the State, except what has been confirmed in Spanish grants. Settlers, therefore, on lands subject to entry, have been afraid to improve them, as they otherwise would have done, because there is much conflict as to the rights of pre-emptors, which questions can only be settled by the Register of the Land office after the lands are brought into market. The democratic party is responsible for the delay, and the voters should remember this fact at the coming election.

The presiding elders of the democratic party who are itinerating the State for the purpose of portraying the glories of democracy, and what it has done for the people in California, carefully avoid this subject, for they well know that there has been gross inattention and direliction of duty, nay, positive injury done the State at large, by withholding a title to lands, which is the foundation of true prosperity in a State. They seek to cover up all the misdoings and short-comings of the administration, by pointing to the vast appropriations made by Congress of moneys to be expended on this coast. Wonderfully generous, magnificently just, worthy of being proclaimed from Shasta to San Diego by salaried government officials!

What are these appropriations for?—All for the benefit of the General Government—such as surveying the public lands—building a mint and custom house—fortifications and light-houses—and all of the money so appropriated, has been paid by the citizens of California in duties on foreign goods, which have passed through the Custom House. For the direct benefit of the State, Congress has never appropriated a dollar. Why have we not had the money refunded which was collected during the military occupation of the country? Why have we not had the usual appropriation made for administering the government before we became a State? Why is it that men who have served in the Indian wars in California, are unable to get their land warrants, though the act of Congress, granting them, passed more than two years since?

These are questions for the democratic speakers to answer satisfactorily to the people, before they can reasonably expect their sufferages, unless they think the voters this fall will go it blind. We ask our citizens to reflect upon these subjects, and not vote for a party which promises all things and performs none.

CAUTION.—Now is the time for our house-keepers to get their supply of wood—those who have animals to keep, their hay—and miners to repair their cabins. The right sign is also in the zodiac for patrons who owe us, to *pungle*. Printers, like other people, have appetites, need clothing, and sometimes when "drouthy" want two bits worth of the "critter."—All these things are true, or we would not publish them.

ISRAELITES.—From our exchanges, we learn that the naturalized Jews in the State, will, for the most part, give their support to the Fillmore ticket. This is no more than might have been expected, by so intelligent, thriving and conservative a people as the Hebrews are.

INDORSEMENT.—The *Bulletin* says:—"Messrs. Whitman and Dibble, the American candidates for Congress, are very highly spoken of by their friends, as men of talent and moral integrity, and as gentlemen every way qualified for the position."

Good News.

Our Legislative nominees have returned to town, after canvassing Merced county, and the mining camps along the Merced river in Mariposa. They report that great enthusiasm prevails among the American party at all the points they have canvassed, and that the success of the ticket is now an absolute certainty. This is cheering news, but no more than we were prepared to receive. The cause is nobly progressing, for the people themselves this fall, are taking an unusual interest in the election. Let the ball roll on, for our cause is just, and strong arms and willing hearts have willed that victory shall perch upon our banners. We advise our friends not to become weary in well doing, but to continue their efforts, to the going down of the sun, on the 4th day of next month.

FUSION IN MASSACHUSETTS.—The Republicans and Americans have fused in the old Bay State.—*New York Herald.*

This fusion is prevailing in several other States, where parties are nearly equally divided. No Fremont man, where his own ticket has no chance of success, can rationally support the Buchanan ticket which is ultra pro-slavery, and of course antagonistic to the platform of his party. If he affiliates with any party, it would naturally be with that which is in favor of the Union as it is, and the whole Union, the Fillmore party. This fusion of parties, and splits of parties, has been practiced as long as they have existed, and has always been regarded as legitimate political tactics. The Republicans in this quarter, are not numerous and have nothing politically to expect, yet, we doubt not, they will use a sound discrimination in voting for a Legislative ticket next month. As weak as it is, it is not improbable that it holds the balance of power in this District.

HON. R. B. LAMON:—It is with no common degree of pleasure that we hear of the re-nommation of Hon. R. B. Lamon of Mariposa County, for the Assembly. Mr. Lamon was elected in that county on the American ticket last year by a large majority, and from the able manner in which he discharged his duties in the House last winter, we cannot but believe that he will again be sent to occupy the positon, which he is calculated to honor. Mr. Lamon is a man who will honor the County whom he represents, let him be sent there regardless of party. We had the pleasure of uccupying a seat with him last winter as one of the Representatives of another county, and consequently had every opportunity to form a correct estimate of his character and ability. We have seen him under trying circumstances and *know* him to be a man in every respect above reproach—conscientious almost to a fault, and solicituous for the good of his constituency. Mr. Lamon is eminently well calculated to honor any position of trust in which his County may see proper to place him.

We are pleased to republish the above, taken from the *Columbian*, published in Columbia, Tuolumne county, as a well merited compliment to the ability and integrity of one whom the people of this county can confide their interests in the Legislature, without fear of betrayal or incompetency in the discharge of duty.

When the District Court gets through we will report proceedings. A large amount of business has been, and is to be, transacted. Two cases for murder have been disposed of—that of Kerrin's, for the murder of Bingham, at French Camp, was one. He was found, after a searching investigation, "not guilty." Defended by D. W. Perley, Worthington and Harris. The other was the case of Fung-ah-Pan, a celestial, who has lain in jail for over five months. He was said to have stabbed his long-tailed brother, with malice aforethought, but after the case was mulled over in Court, the jury did'nt think Fung had done anything contrary to *law* and the *peace* and *dignity* of this State, (and we fully coincide,) and so the vertebrae of Fung's neck is not to be dislocated.—Worthington and Deering for Fung.

We called at the Court room yesterday, and was not very favorably impressed with the appearance and dignity prevailing. The Judge had a sort of squat settled-together appearance, undoubtedly the result of a long sitting. We have seen eyes brighter. He descended from his seat and we asked him for a cigar—he having a long nine in his mouth. We were informed with great dignity, that he had none, and that in his mouth was the last the man had of whom he borrowed. Mr. Clerk had disposed of himself in a chair—both feet over the rail of the bar—taking up considerable room, and making considerable noise. The Deputy Sheriff was *about* with a green pepper, which he would squeeze under peoples noses, tickling, not only that organ and the victim's eyes, but the deputy himself. One lawyer was endeavoring to stick a pin into the *stern*-um of another, who had disposed of himself improperly, and we hoped the attempt would be successful. All were smoking, and after a considerable stay, we left in disgust.

—Since writing the above, we have been very kindly offered the proceedings of the Court thus far, by B. B. Harris, Esq., to whom we are under obligation. We cannot use them this week, as we have no room.

Bishop ALEMANY, from San Francisco, arrived in Mariposa on Saturday, and will visit, during the present week, several of the larger camps in the county. His pastoral visit in this quarter, will, of course, be gratifying to the adherents of his church.

We wish to call attention to the Governor's Proclamation, and particularly that part relative to the proposed amendments to the Constitution, of which we will speak more fully next week.

Meeting at Bondville.

At a meeting called at Bondville, on Tuesday evening the 14th inst., for the nomination of Justice of the Peace and a Constable, for Township No. 3, Mr. W. O. Brodhead was appointed President, and R. B. Stinson, and R. McClenachan, Secretaries. A series of Resolutions was adopted to the effect, that the North-Western portion of Township No. 3, demanded that it was requisite to appoint a Justice of the Peace, who would reside, or hold his Court in that portion of the County—and earnestly requesting our friends at Agua Frio, Sherlock's Creek and Carson's to aid us in electing such.

The names of Capt. J. W. Reid and W. Owen, being submitted to the meeting, Capt. Reid was unanimously nominated for Justice of the Peace, and Joel Bass as Constable.

A Resolution being passed to publish these proceedings in the Mariposa *Gazette* and *Democrat*, the meeting adjourned.

Mariposa Gazette.

E. J. Sagendorf, is a name attached to a card in the last number of the *Democrat*, wherein complaint is made that we have used personalities, and abused him and *another democrat*. We deny that we are guilty as charged; not having used, or intended to use personalities or abuse in any sense. The gentleman's card is a very foolish one, and uncalled for. If Mr. Sagendorf and *another democrat* expects to go about the country as public instructors, of political duties, and not have their doctrines and sentiments critized, they are unreasonable in their expectations, for we will criticise them if we get a chance, they may be assured. Mr. S., if we remember right, was last year an ardent K. N., or a *Ki Yi*, as he is pleased to call the party. After some service he became pregnant with conscientious principle, and turned democrat—the transition being similar to that of a *tadpole* turning *frog*; and he is now apparently ready to perform in any mud-puddle, or lie down and roll over whenever the democrats throw him a sop. For his wish to instruct us in *respectable Journalism*, we are obliged, but most respectfully decline, and with this we drop the matter.

A FOUR.—Two gentlemen connected with the District Court, one as a ladler out of the law, and the other as an executive thereof, fell out on the way from the Court House to town recently. One of them, whom we will designate as No. 1, made approbrious remarks about the party of which the other was a member. No. 2, requested No. 1 to discontinue the subject, which to him was decidedly unpleasant. No. 1 having waxed wroth, and not thinking his treatment of the matter fraught with danger, kept on.—No. 2, immediately proceeded to break a stick over the *cabeza* of No. 1, who ran commendibly to a pile of dirt and stones, and commenced a free soil movement, by throwing rocks at No. 2. No. 2 immediately charged the position—No. 1 running to the rear with great spirit, taking a rail fence in his course, and disappearing in a pile of lumber. Thus the affair ended—which we give as we hear it.

ARTESIAN WELLS.—The success attending the boring of Artesian wells, in San Jose valley, has induced the experiment in the Sacramento and San Joaquin valleies. At Sacramento city, one has been commenced of a large size, and has been sunk 60 feet. Another one is in process of construction at Stockton, and has obtained the depth of more than 300 feet.—Water is found in both of them, after a few feet boring, but as yet, no supply source sufficient to elevate the water to the surface. It is to be hoped, that the experiments may succeed, and that the fact will be demonstrated, that water, by means of these wells, can be obtained throughout the San Joaquin valley.

President Pierce is making arrangements for his retiring. He has purchased a residence at Portsmouth, N. H. It would have been much better for the country if he had always lived in retirement.

PAPER MILL.—A paper mill of large dimensions, situated on a Creek emptying into Bolinas Bay, is nearly completed.—When finished, it is estimated that the proprietors will be able to manufacture a ton of paper, suitable for newspapers, every twelve hours.

EARTHQUAKE ABOUT SAN DIEGO.—A severe shock of an earthquake was felt in different parts of San Diego county on the night of the 20th September. There will be another severe shock felt all over the State, but chiefly by the Democrats, on the 4th of next month.

DIED.

At Puerto Principe, Island of Cuba, on Thursday, August 28th, JOHN J. BRUCE, of New York, Superintendent of the Neuvitas and Principe Railroad—third son of Alderman Bruce, late of Jersey City, N. J., now a resident of Williamsburg, L. I., and brother of Charles, Wm. D. and A. A. Bruce of this town.

MR. BRUCE was an ingenious mechanic, and a man of great moral worth. His death caused the deepest regret among all who knew him, both Americans and Spaniards.

"None knew him but to love him,
None named him but to praise."

J. NEELY JOHNSON.
Attest, Governor of California.
DAVID F. DOUGLASS, Secretary of State.

PROCLAMATION.

WHEREAS, the 1st Section of the 10th Article of the Constitution of the State of California, requires that amendments to the Constitution, after having been adopted by the Legislature, shall be published three months with the yeas and nays thereon, and referred to the next Legislature, and whereas the annexed proposed amendment to the Constitution was adopted by the Legislature at the session of 1855, and the same published, and referred to the Legislature at the session of 1856, as required by the Constitution, and the said proposed amendment so referred having been agreed to by a majority of all the members of each House:

Now, therefore, I, J. Neely Johnson, Governor of the State of California, do hereby direct that at the general election to be holden throughout the State of California, on the first Tuesday after the first Monday of November, A. D. 1856, being the 4th day of the month, said proposed amendment be submitted to the qualified electors voting at such election, in accordance with an Act entitled "An Act agreeing to the proposed amendments to the Constitution, and providing for the submission to the people." Approved April 19, 1856, and commend the same to the consideration of the citizens of the State of California.

Witness my hand and the great Seal of State, at the city of Sacramento, this the 3d day of October, A. D. 1856.
J. NEELY JOHNSON.
Attest, DAVID F. DOUGLASS, Sec'y of State.

Proposed Amendments to the Constitution of the State of California.

Section two of Article ten, is amended so as to read as follows: And if, at any time, two thirds of the Senate and Assembly shall think it necessary to revise and change this entire Constitution, they shall recommend to the electors at the next election for members of the Legislature, to vote for or against a Convention. And if it shall appear that a majority of the electors, voting at such election, have voted in favor of calling a Convention, the Legislature shall, at its next session, provide, by law, for calling a Convention, to be holden within six months after the passage of such law; and such Convention shall consist of a number of members, not less than that of both branches of the Legislature. The Constitution that may have been agreed upon and adopted by such Convention, shall be submitted to the people, at a special election, to be provided for by law, for their ratification or rejection; each voter shall express his opinion by depositing in the ballot box a ticket, whereon shall be written or printed, the words "For the new Constitution," or "Against the new Constitution." The returns of such election shall, in such manner as the Convention shall direct, be certified to the Executive of the State, who shall call to his assistance the Controller, Treasurer and Secretary of State, and compare the votes so certified to him. If, by such examination, it be ascertained that a majority of the whole number of votes, cast at such election, be in favor of such new Constitution, the Executive of this State shall, by his proclamation, declare such new Constitution to be the Constitution of the State of California. o15

THE ELECTRO CHEMICAL BATHS,

OF DR. BOURNE,

Southeast Corner of Sansome and Commercial Streets, opposite St. Nicholas Hotel,

SAN FRANCISCO, CALIFORNIA.

ARE affecting the most extraordinary CURES of Fever and Ague, Intermittent and other Fevers, Jaundice, Diseases of the Liver, Kidneys, the Genital and Urinary Organs, all Sexual Disorders, Paralysis, Neuralgia, including Tic Doloreux, Stiff Joints, and are also employed with astonishing success in

DISEASES OF THE EYE.

Also, all Indolent Ulcers, Tumors, Swellings, Abscesses, Cancer of the Womb, all other affections of the Womb, and Cancerous affections generally, and Scrofula. These Baths seem to be Nature's own chosen medium for effecting cures where all other means would fail without them; and prove beyond the possibility of doubt, to all who take them, the iniquity of Medical practice, which poisons the human system by administering to it calomel, arsenic, lead, zinc, iron, antimony, quinine, iodide of potassa and a whole host of deadly drugs which remain in the system, and are EXTRACTED BY THESE BATHS.

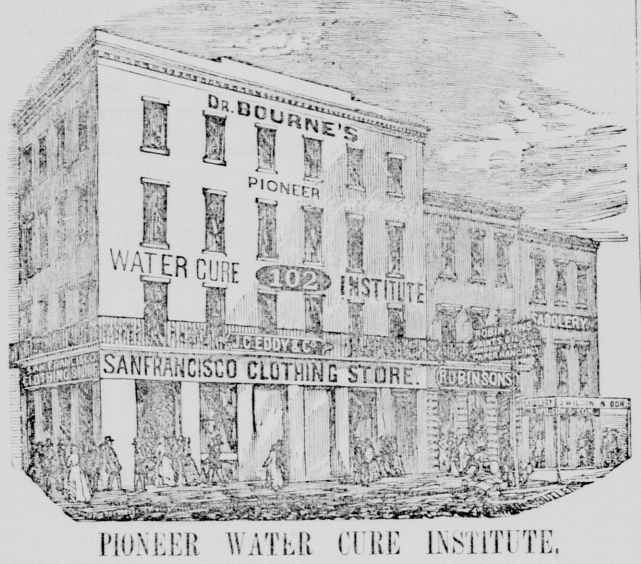
During nearly fifteen years I have never given even a solitary dose of oil or salts, much less any poisonous drugs, or herbs, and have never seen a case in which they were requisite if Water Treatment was employed. When will the people cease to be such simpletons as to hire men to POISON and BLEED them, while they also retain on their statute books laws against poisoning, maiming and bleeding CATTLE? Are the members of the human family less worthy of protection than animals? I assert in the face of this entire State and the world at large, that there never was, is not now, and never will be, a case in which calomel, crude mercury, quinine, arsenic, lead, zinc, iron, antimony, iodine, or any other POISON, should have been, or be administered to the human system, or in which bleeding, cupping or leeching, was required; and further, that hundreds of thousands fill premature graves through an ill-timed or over dose of salts or oil. Let the people ponder on these things, and if the poor and deluded victims of medical rascality desire health, I pledge the honor of one man at least, that I will so employ NATURE'S AGENCIES of good food, air, pure water, exercise, clothing, the Electro Chemical Baths, and the sleeping and walking hours, that without a particle of NASTY and POISONOUS medicine, I will so arouse the powers of their systems that if there be any strength left they shall speedily get perfectly well in body, with minds so expanded to the perception of natural philosophy, as thereafter to cause them to set their faces against all professional rogues and fo ls, and awake them to a knowledge of the evils of entrusting their own vital interest to the keeping of others, whose interest must ever be antagonistic to their own.

Address, by letter or personally, Dr. BOURNE, Water Cure Physician, Sansome street, opposite St. Nicholas Hotel, San Francisco,† importer into this State of the FIRST and ONLY apparatus for giving these delightful and beneficial Electro-Chemical Baths, and whose experience in their use warrants him in speaking of the in them terms he employs.—They require great caution in administering them, and Dr. Bourne never entrusts that duty to others, thus avoiding all danger.

So many lying and forged certificates, and PRETENDED editorial recommendations are published, that those truthful statements of facts which Dr. Bourne could offer, are withheld, rather than any should suppose they were merely "got up."

Consultations without charge, and charges very moderate for the benefits conferred.

QUICK CURE—SURE CURE—(if curable)—is the motto of Dr. BOURNE.



PIONEER WATER CURE INSTITUTE,

Southeast Corner of Sansome and Commercial Streets, opposite the St. Nicholas Hotel, San Francisco.

DR. BOURNE, Water Cure Physician.

Having every facility for the scientific administration of Water Treatment, offers the advantages of this natural, rational, and most efficacious mode of curing diseases, to invalids, in either acute or chronic stages of suffering, and especially to those laboring under the RUINOUS EFFECTS OF CALOMEL, and Drug treatment generally.

There are no nauseous or poisonous medicines to swallow or pay for, as Dr. BOURNE does not administer any whatever, nor bleed, cup or leech; so it is not only the BEST but CHEAPEST system for restoration to health.

In Chronic or acute rheumatism, Diarrhœa, Dyspepsia, Fever and Ague, Isthmus Fever, ALL Nervous and Sexual disorders—in fact, in all cases, the WATER CURE is of unequaled value.

Apply personally, or address by letter, as above.

PARTICULAR NOTICE.

The "Russian," Digger Indian! Turkish, or Egyptian "Steam baths,"—the invention of barbaric minds—with all their EVIL CONSEQUENCES to Weak Lungs, Palpitating Hearts, and debilitated Digestive and Nutritive Organs, are NOT Water Cure, and bear no more relation to that glorious system than does a horse to a red herring, notwithstanding all the false representations to that effect. Dr. Bourne is the ONLY and only Water Cure Physician on the Pacific Coast, and is daily demonstrating his skill in his art with the highest success—curing those whom the medical fraternity had placed almost beyond the confines of hope; such being the general character of the cases demanding and receiving relief at his hands. Let them continue to come and be HEALED, and converted to this wiser and better way s24 3m

DR. J. C. YOUNG

Corner of Montgomery and California sts. over Wells, Fargo & Co's Express Office, San Francisco.

Is the pioneer advertising Physician of California, and the only one who received a Collegiate Medical Education, and is better qualified to treat, and has cured more cases of Private Disease than any other physician. For reference, see all of the papers throughout the State.

CONSTITUTIONAL DEBILITY, OR SEMINAL WEAKNESS.—Dr. YOUNG addresses those who have injured themselves by private and improper indulgences in that secret and solitary habit which ruins the body and mind, unfitting them for either business or society. The following are some of the sad melancholy effects produced by early habits of youth, viz: Weakness of the back and limbs, pain in the head, dimness of sight, loss muscular power, palpitation of the heart, dyspepsia, nervousness, irritability, derangement of the digestive functions, general debility, symptoms of consumption. &c.

MENTALLY the fearful effects on the mind are more to be dreaded. Loss of memory, confusion of ideas, depression of spirits, evil forbodings, aversion to society, self-distrust, love of solitude, timidity, &c. &c. are some of the evils produced.

All persons who are afflicted with any of the above symptoms should not fail to call on Dr. Young, and be at once restored to health. Let no false delicacy prevent you, but apply immediately, and save yourselves from the dreadful and awful consequences of this awful malady.

WEAKNESS OF THE ORGANS

immediately cured, and full vigor restored.

Dr. J. C. YOUNG,

Cor. California and Montgomery sts. (up stairs.)

IMPORTANT TO MINERS, TRAVELLERS, ETC.

THERE is no malady of deeper importance, either in a medical or moral point of view, to which the human family is more liable than that arising from impure connections.

As a Medical man it is the duty of every physician to look at disease as it affects health and life, and his sole object should be to mitigate, as far as lies in his power, the bodily suffering. Human nature at best is but frail, all are liable to misfortune.

Of all the ills that affect man, none are more terrible than those of a private nature. Dreadful as it is in the person who contracts it, frightful as are its ravages upon his constitution, ending frequently in destruction and a loathsome grave, it becomes of still greater importance when it is transmitted to innocent offspring. Such being the case how necessary it becomes that every one having the least reason to fear that they have contracted the disease, should attend to it at once by consulting some physician, whose respectability and education enables him to warrant a safe, speedy, and permanent cure. In accordance with this necessity, DR. YOUNG feels called upon to state that, by long study and extensive practice, he has become perfect master of all those diseases which come under the denomination of venereal, and having paid more attention to that one branch than any other physician in the United States, he feels himself better qualified to treat them.

Syphilis in all its forms, such as Ulcers, Swelling in the Groins, Ulcers in the Throat, Secondary Syphilis, Cutaneous Eruptions, Ulcerations, Tertiary Syphilis, Syphilis in children, Mercureal Syphilitic Affections, Gonorrhea, Gleet, Strictures, False Passages, Inflamation of the Bladder and Prostrate Glands, Excoriations, Tumors, Postules, ect., are as familiar to him as the most common things of daily observation.

The Doctor effects a cure in recent cases in a few days, and finds no difficulty in curing those of long duration, without submitting the patient to such treatment as will draw upon him the slightest suspicion, or oblige him to neglect his business, whether within doors or without. The diet need not be changed, except in cases of severe inflamation. There are in California patients, (amounting to over two thousand in the past year,) that could furnish proof of this; but those are matters that require the nicest secresy, which he always preserves.

All letters, enclosing $10, will be promptly attended to Office hours from 9 A. M. to 8 P. M. Address

J. C. YOUNG, M. D., Express Building,

Corner of Montgomery and California streets, over Wells, Fargo & Co.'s Express Department.

TO THE AFFLICTED—Persons troubled with disease should peruse the following letters of Recommendations, from DR. J. C. YOUNG'S patients.—They are voluntary offerings of gratitude to him for benefits received, and are proofs strong as Holy Writ, of his scientific attainments. No one can read them without at once having confidence in him, and we confidently make the assertion that people afflicted with private or other diseases, will call upon him in preference to any other physic an in the country.—Read them carefully, ye that need medical assistance, and then lose no time in consulting him while there is time left to cure you in.

MARYSVILLE, June 10th, 1855.

DR. J. C. YOUNG, DEAR SIR:—Please send me some of the medicines you prescribed in my case. I have a friend here who is troubled in exactly the same way that I was. He has nightly emissions, ringing noise in his head, weak back, bad eyesight, and is generally debilitated; he is discouraged and has not confidence enough to enable him to call and see you. I told him how I was, and that my friends all said I was in consumption, and the doctors up here gave me up, and advised me to go home and die, but instead of going home I called upon you, and here I am as well as any of them, and likely to live a long time yet, with strength enough to work with the strongest of them. Doctor I will send every one to you that looks to me as though he needed a physician. It shall not be my fault if any one dies for want of medical treatment. I will do all I can to keep the afflicted away from those pests of society, yclept professors and high-sounding titled men who, if the facts were known, are men who left their country for their country's good. Publish this letter Doctor, if you wish, and I hope that some of those that humbugged me may see it and sleep bad for one night.

Truly yours, GEO. DAVISON.

GRASS VALLEY, June 20, 1855.

DEAR SIR:—The last medicine you sent me has done the business. I am now perfectly well, and wish to give my testimony to the public in favor of your skill. I was troubled with a compliication of diseases brought on by that soul destroying habit of self-pollution, and complains caught by connection with bad persons of the opposite sex. I have been treated by some of the best physicians, as well as those quacks who infest this State, and by them all given up as incurable; but being advised by a friend who had been benefitted by your scientific treatment, to call upon you. I did so, and feel grateful for you for the information, but still more thankful to you for the care and good advice you gave me, as well as the efficatious medicines you prescribed. If any of the afflicted should see this, let them be sure that it is a a voluntary offering in gratitude for the blessings of health received from you, and also given with a fervent wish that it may be of service to those suffering as I did; and now may God bless you in your effort to lessen the sufferings of the human family, and may all good citizens assist you to drive from the community these leaches that prey upon the public by false pretensions of eminence in the medical world. Yours eternally.

JOHN BURGESS.

To Dr. J. C. Young, San Francisco.

PLACERVILLE, May 28, 1855.

DR. J. C. YOUNG—DEAR SIR:—Words cannot express the gratitude I feel is due to you for the benefit I have received from your truly invaluable course of treatment of my case while prescribing for me. I think I cannot justify myself without giving this small token of my thankfulness and esteem, for you have been the means of saving my life, and restoring to me that health which I had so long despaired of again enjoying. I had for a long time (four years) been troubled with that most dreadful scourge of young people, seminal weakness, or nocturnal emissions, which so weakened me, by body and mind, that I was obliged to give up mininli altogether. I consulted one of the best physicians, (so called,) in the mountain districts, and after a carsful examination of my case, he gave me medicines. I continued under his treatment for three months without receiving any benefit, in fact, I grew worse frhm week to week, until at last I got discouraged and asked him for his opinion. I told him not to fear to tell me the whole truth, for I should rather know the worst at once, thau to live in suspense. I had lost about thirty pounds of flesh, and knew that he at least could not cure me, and as I was then going on, death must soon count me as one of its victims. This physician then told me that my case was incurable; that I had better not take any more medicines. He said I was in a decline, which was fast tending to pulmonary consumption.

I then despaired of obtaining any relief, and saw that unless something was done to mitigate the complaint, that I should be numbered with the dead, or what is worse, be a raving maniac. Happening to see one of your books, the Pocket Æsculapius, I made up my mind at once to call and consult you with the determination of trying once more to get relief if you would undertake the case. Oh, how thankful I am for that determination! I commenced taking the medicines prescribed by you, and I am now, through their healing powers, restored to perfect health. I shall not fail to recommend you to any of my friends that require assistance, for a man that can cure a case as bad as mine was, can cure every disease that flesh is heir to, if there is life enough left in the system to build upon.

Receive my most sincere and heartfelt thanks and esteem. S. W. RIGHLEA.

SAN FRANCISCO, June 23, 1855.

Dear Sir—I have not had one single fit since I commenced taking your medicines; I am also gaining strength every day. The trouble that I had, which was the cause of the fits, is also leaving me qery fast. In fact, I think I am entirely well, but if you think it best, I will take medicines a short time longer. It is only about two months since I commenced taking your prescriptions, and although you told me it would take from three to four months, yet I feel perfectly well already. I feel sorry that I did not visit you at first, and not allow myself to be led away by the vain boasting of those quacks that copy your style of business, and thereby impose upon the public. They despolled me of my money, and if I had not stopped taking their vile stuff, they would have robbed me of my life also. Thanks to your superior medical skill, I am beyond danger, and I shall always consider you the savior of my life.

Dear Dr.—Publish this if you consider it worth your while, for I wish to proclaim to the world your worth, that every one who needs a physician may know where to call, and be sure of avoiding deceit and imposition. Yours, till death,

GEO MARSHAL.
